

**LISTING OF CLAIMS:**

Claim 1. (original): Shoe or leather care product comprising an aqueous phase, an oil phase, and an emulsifier system, which product has a VOC below 22 wt.%, based on the weight of the product.

Claim 2. (original): Shoe or leather care product according to claim 1, wherein the VOC is below 15 wt.%, preferably below 5 wt.%, and more preferably below 1 wt.%.

Claim 3. (currently amended): Shoe or leather care product according to claim 1 ~~or 2~~, having a penetration value below 60 units of 0.1 mm.

Claim 4. (original): Shoe or leather care product according to claim 3, having a penetration value between 5 and 40 units of 0.1 mm.

Claim 5. (currently amended): Shoe or leather care product according to ~~claim 1 any of the preceding claims~~, wherein the aqueous phase constitutes 50-90 wt.% of the product.

Claim 6. (currently amended): Shoe or leather care product according to ~~claim 1 any of the preceding claims~~, wherein the oil phase constitutes 1-50 wt.% of the product.

Claim 7. (original): Shoe care product according to claim 6, wherein the oil phase constitutes 1-35 wt.% of the product.

Claim 8. (currently amended): Shoe care product according to ~~claim 1 any of the preceding claims~~, wherein the oil phase, comprises 1-45 wt.% of a wax based on the weight of the product.

Claim 9. (currently amended): Shoe care product according to claim 8, wherein the wax constitutes 1-25 wt.% based on the weight of the product.

Claim 10. (currently amended): Shoe care product according to claim 8 ~~or 9~~, wherein the wax is chosen from the group of mineral waxes, paraffins, microcrystalline waxes, plant

derived waxes, animal waxes, Fisher Tropsch waxes, polyolefin waxes, synthetic waxes and combinations thereof.

Claim 11. (original): Shoe care product according to claim 10, wherein the total wax has a congealing point between 30° and 100°C, more preferably between 40° and 90°C and most preferably between 45° and 80°C.

Claim 12. (currently amended): Shoe or leather care product according to claim 1 any of the preceding claims, wherein the emulsifier system constitutes 0.2-20 wt.% of the product.

Claim 13. (currently amended): Shoe or leather care product according to claim 1 any of the preceding claims, wherein the emulsifier system comprises a surfactant and a co-emulsifier.

Claim 14. (original): Shoe or leather care product according to claim 13, wherein the surfactant is chosen from the group of non-ionic, amphoteric, cationic and anionic surfactants.

Claim 15. (original): Shoe or leather care product according to claim 14, wherein the surfactant is a neutralized fatty acid.

Claim 16. (currently amended): Shoe or leather care product according to claim 13 any of the claims 13-15, wherein the co-emulsifier is a mixture of carboxylic acids and/or fatty acids in combination with multivalent neutralizing neutralising agents and/or multivalent metal cations and/or multivalent metal soaps and/or di-, tri- or multi- amine soaps and/or a mixture of any fatty acid derivatives including fatty acid esters and/or fatty alcohols and/or fatty acid amides and/or fatty acid amines and/or fatty acid amine oxides and/or any derivatives thereof.

Claim 17. (original): Shoe or leather care product according to claim 16 comprising a multivalent amine.

Claim 18. (original): Shoe or leather care product according to claim 16 comprising a multivalent cation.

Claim 19. (original): Shoe or leather care product according to claim 16, wherein each constituent material has a HLB value below 13, preferably below 10, more preferably below 8.

Claim 20. (currently amended): Shoe or leather care product according to claim 13 any of the claims 13-16, wherein the co-emulsifier is a multivalent cation.

Claim 21. (original): Shoe or leather care product according to claim 20, wherein the multivalent cation is a calcium, magnesium or zinc cation.

Claim 22. (currently amended): Shoe or leather care product according to claim 13 any of the claims 13-16, wherein the co-emulsifier is a multivalent amine.

Claim 23. (currently amended): Shoe or leather care product according to claim 16 any of the claims 16-22, wherein the multivalent amine or multivalent cation is wholly or partially replaced by a fatty alcohol or derivative thereof, or a fatty acid ester or derivative thereof, or a fatty amide or derivative thereof or a fatty amine or derivative thereof or a fatty amine oxide or derivative thereof.

Claim 24. (original): Shoe or leather care product according to claim 23, wherein the derivative of a fatty alcohol is an alkoxylated fatty alcohol.

Claim 25. (currently amended): Shoe care product according to claim 13 any of the claims 13-24, wherein the co-emulsifier constitutes 0.2-16 wt.%, preferably 0.5-13 wt.% and more preferably 1-10 wt.% of the product.

Claim 26. (currently amended): Shoe or leather care product according to claim 1 any of the preceding claims in the form of a water continuous emulsion or an oil continuous emulsion.

Claim 27. (currently amended): Shoe or leather care product according to claim 1 any of the preceding claims, having a total summation of the saponification value, the hydroxyl value, and the nitrogen value as defined of all the raw material components in the product with more

~~than then~~ 14 carbon atoms per molecule in the shoe care product should be between 0.5-40 mg KOH per gram.

Claim 28. (currently amended): Shoe or leather care product according to claim 1 any of the preceding claims wherein the product is a shoe polish, a shoe cream, a self polishing composition, an impregnated towel or sponge or an aerosol.

Claim 29. (original): Shoe or leather care product according to claim 28 wherein the product is for the care of nubuck- or suede.

Claim 30. (currently amended): Shoe or leather care product according to claim 1 any of the preceding claims, packed in a metal container which is free of chloride ions.

Claim 31. (currently amended): Shoe or leather care product according to claim 1 any of the preceding claims wherein the aqueous phase comprises up to 20% optional ingredients.

Claim 32. (original): Shoe or leather care products according to claim 31 wherein the optional ingredients are chosen from the group of silicones, colouring agents, humectants, anti-corrosives, preserving agents, defoamers, salts and combinations thereof.

Claim 33. (original): Shoe or leather care products according to claim 32 comprising 0.05-2 wt.% based on the product of one or more salts.

Claim 34. (original): Shoe or leather care products according to claim 33 comprising 0.15-0.6 wt.% based on the product of one or more salts.

Claim 35. (currently amended): Shoe or leather care product according to claim 1 any of the preceding claims comprising 0.1-10% silicone, preferably 0.3-5% silicone and more preferably 0.3-3.5% silicone.

Claim 36. (original). Shoe or leather care product according to claim 35, comprising one or more silicones with a HLB value below 8.

Claim 37. (currently amended): Shoe or leather care product according to claim 1 ~~any of the preceding claims~~ in the form of a water continuous phase emulsion, wherein the total summation of the saponification value, the hydroxyl value, and the nitrogen value as defined of all the raw material components in the product with more than ~~then~~ 14 carbon atoms per molecule is between 0.5 and 40 mg KOH per gram of the resulting shoe care product, preferably between 1 and 35 mg KOH per gram of the resulting shoe care product, and more preferably between 1.5 and 30 mg KOH.

Claim 38. (currently amended): Shoe or leather care product according to claim 1 ~~any of the claims 1-36~~ in the form of an oil continuous emulsion, wherein the total summation of the saponification value, the hydroxyl value, and the nitrogen value as defined of all the raw material components in the product with more than ~~then~~ 14 carbon atoms per molecule is between 0.5 and 20 mg KOH per gram of the resulting shoe care product, preferably between 1 and 15 mg KOH per gram of the resulting shoe care product, and more preferably between 1.5 and 10 mg KOH.

Claim 39. (currently amended): Use of a shoe or leather care product according to claim 1 ~~any of the preceding claims~~ for cleaning or treating shoes.

Claim 40. (currently amended): Method for cleaning or treating shoes wherein an amount of a shoe care product according to claim 1 is applied to the outer surface of a shoe.
